

## Bag dangling - Key holder

Difficulty level: for advanced beginners

Fabric recommendation:  
Faux leather, leather, Faux fur, minky fur.

Materials:  
approx 1 x 28 cm (11") x 11 cm (4") faux leather, real leather, felt  
1 Punch 10 mm (3/8")  
2 Keyrings  
1 Carabiner (passage 10 mm) 1 Rivet 6 mm (1/4")

1  
Loop the strap through the swivel clasp and fold the stripe in the middle. Punch a hole below the clasp and fix the strap with the 6 mm (1/4") rivet.

2  
At the other end of the stripe, loop each end through a key ring and fold over by 15 mm (1/2"). Clamp both ends as shown. (see picture 2)

3  
Fix both keyrings with a few stitches. If you like, you may use a rivet (6mm; 1/4"), as shown in image 1.

4  
Now it should look like this. (see picture 4)

5  
Thread the keyring through the small hole in the middle of the key holder. Fold the keyholder in half and right sides together. Fix it with clamps

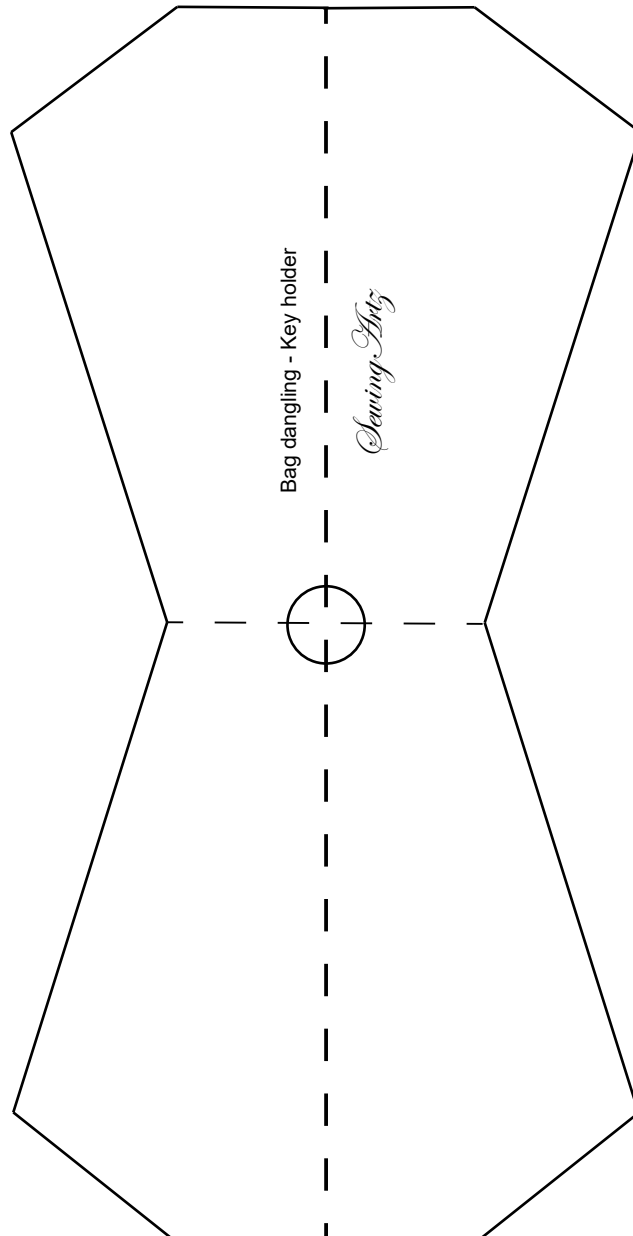

6  
Now you sew the right and the left side together tightly and lock your seam at start and end 1-3 times with just one stitch.

Your bag dangling as a key holder is now complete ;-)
